The unit, apparently a company, moved into its former quarters when it returned from summer camp. On 20 October, the unit had ten AT guns of 50 to 75 mm, while it had only eight guns when it left for summer camp. 25X1 Another building of the Artillerie Kaserne was still occupied by a signal unit of about 60 men who wore red-bordered black equalets, some with signal insignia. A wooden observation platform was on top of a heavily damaged, unoccupied building next to the quarters of the signal unit. A rod antenna, about 30 cm high, was fitted in the center of the platform, from which a wire led to the billets of the signal unit. The observation platform was occupied day and night by a sentry with field glasses. A special trailer with three windows was blocked up in the barracks yord, not far from the quarters. Pive to ten meters from this trailer there stood a pole 8 to 10 meters high braced by four guy wires. 25X1 A truck with a rod 25X1 25X1 The hithorto unoccupied 25X1 riding hall of the artillerie Laserne was being reconditioned. * Comment. The report indicates that the components of the 39th Rds mitle Div from Plauen returned to their quarters about 20 ctober 1950. Other reports stated that elements of this division returned to 25X1 Beiningen and Rudolctadt about the same time. See the 112th Gds Ltz Rifle Tegt of the 39th Gds itz Rifle Div, definitely confirming the regiment in the Hindenburg Kaserne, Plauen, up to 18 October 1950. Rased on the weapons in the 25X1 barracks installations, it is believed that the Infanterie Kaserne quarters the 87th Gun Arty Wegt, possibly with an organic howitzer battalion; the artillorie Kaserns quarters either the AT artillery company and the AT artillery platoons of the 112th 3ds Litz Rifle Regt 25X1 or the AT artillery battalion of the division[25X1
